Project description: This project involves the development of a custom-made, high-quality hanger system for a clothing store. The system is designed to be durable, functional, and aesthetically pleasing. It will be used to display a variety of garments, including shirts, jackets, and dresses. The hangers are made of high-quality materials and are designed to provide optimal support and protection for the clothing. The project also includes the installation of the hangers in the store and the training of staff on how to use them. The overall goal is to create a professional and efficient hanger system that enhances the store's presentation and improves the customer's shopping experience.

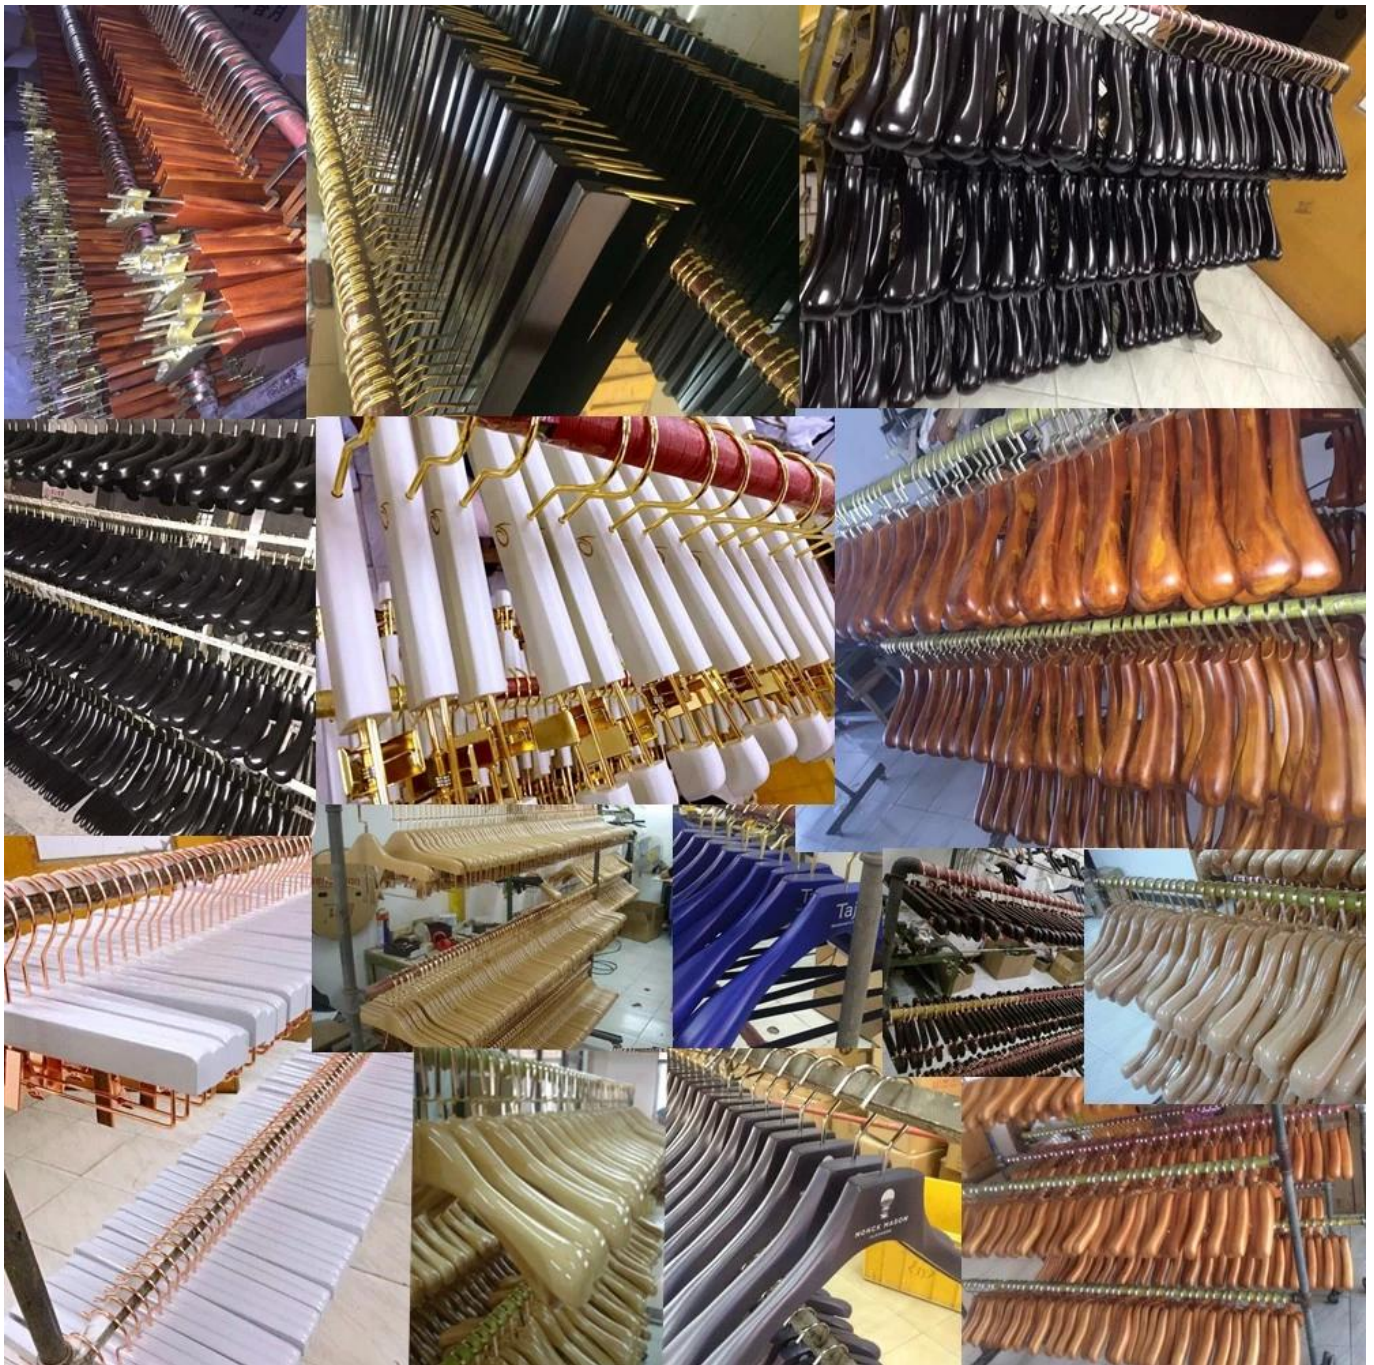

Project objectives: The project aims to achieve the following objectives:

- Develop a custom-made hanger system that is durable and functional.
- Design hangers that are aesthetically pleasing and provide optimal support for clothing.
- Install the hangers in the store and train staff on their use.
- Improve the store's presentation and enhance the customer's shopping experience.

Project scope: The project scope includes the design, development, and installation of the hanger system. It also includes the training of staff and the ongoing maintenance of the system.

Project budget: The project budget is approximately 80% of the total cost of the hangers and installation. The remaining 20% is allocated for staff training and ongoing maintenance.

Project timeline: The project is scheduled to be completed within a three-month period.

FAQ —

Q: 我哋想知貴公司嘅產品有幾多款？

A: 我哋公司嘅產品種類繁多，包括各種顏色、款式嘅衣架，以及各種配件，如衣夾、衣架繩等。accseeories

Q: 我哋想知貴公司嘅產品有幾多款？

A: 我哋公司嘅產品有 150 多種，包括各種顏色、款式嘅衣架，以及各種配件，如衣夾、衣架繩等。3 種顏色 3 種款式 5 QC
